

QUANTUM GAME JAM 2023

September 15-17   

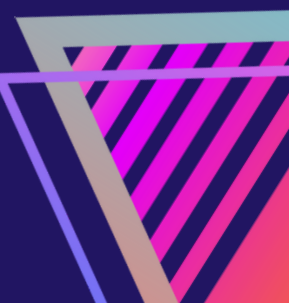

www.quantumgamejam.org

What is Quantum Game Jam?

Quantum Game Jam is an open and relaxed event for creating quantum physics related and inspired games, enabling participants to experiment with latest quantum computing simulations and tools! The event nurtures collaboration between quantum physicists, game developers and artists.

Quantum Physics ♥ Games

2023 Edition

This year, we are aiming to host Quantum Game Jam fully online with the encouragement for individuals and institutions (schools and universities) to host local jam sites for the participants who wish to meet and jam together in person. Just as previous years, we will host all content online that will be streamed on Twitch channel of our long-term partner IGDA Finland, which will include:

Talks & Interviews

Guest speakers from both worlds of quantum physics and game development.

Demo & Showcase

Live coverage of the jamming progress and showcasing the teams' game development journeys.

Live Gameplay

Playing the finished games live with the commentary from the organizers and partners of the event.

Who can host a jam?

We welcome individuals, groups and organizations to host a physical game jam site. Hosting of the game jam is a volunteer-based work and we recommend team of volunteers sharing the work that takes to organize and host the jam.

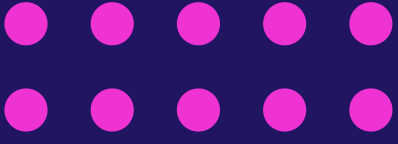

Individuals

We welcome individuals who are passionate about community building and management to host a game jam site. The site organizer needs to commit to fulfill the time needed for preparations, organizing and hosting the game jam, communicating all the game jam information to their participants.

Organizations

We welcome organizations such as schools and universities to host a game jam site. The organization needs to have a committed representatives to fulfill the time needed for preparations, organizing and hosting the game jam, communicating all the game jam information to their participants.

The game jam site needs to be open to everyone who wishes to join their physical site, even if they are not part of the organization (e.g. employee, student).

Hosting a Jam Site

+ Here are some requirements and practical tips in organizing a physical game jam site: +

Venue Selection

Make sure that the venue has access for the jammers throughout the duration of the game jam event. Inform your attendees of possible restrictions, accessibility aspects and how they can sign up to your physical site to join the jam.

Streaming

Make sure that you have steady internet access for the jammers to follow the game jam stream as well as join the live interview and presentation sessions.

Available resources

Make sure that you communicate what possible technical equipment (e.g. computers, art or music creating tools), licensed software tools, and possible refreshments are provided to the jammers at the site.

Support

Our team of game jam organizers will have a dedicated sessions onboarding you to all practical aspects and resources for hosting your physical site.

Join us!
